

Important Information

"Oak National Academy is a new collection of high-quality lessons and online resources. Backed by the Government, it has been created in response to the coronavirus lockdown.

Their online classroom offers free access to great teachers, delivering video lessons, quizzes and worksheets. Available for both primary and secondary levels, it covers a range of subjects. All of the lessons are ordered so your child can learn along a clear plan. They'll provide new lessons and resources each week.

Oak National Academy will fit alongside other resources such as BBC Bitesize to offer a structure for the day for children until schools fully reopen.

Oak National Academy was built at speed; at present their resources are for pupils who usually access their schools' curriculum in mainstream education, from reception through to year 10, without significant support or adaptation. They're currently working on providing support for teachers working with pupils with additional needs, and teachers based in specialist settings. Next week they hope to launch materials for pupils not able to access all aspects of their current offer." Information taken from the Oak National Academy website (<https://www.thenational.academy/information-for-parents-pupils/>)

The Oak National Academy lessons can be accessed here: <https://www.thenational.academy/online-classroom>

As you are aware, at Victoria Dock Primary School we provide a home learning pack every week which is created by our class teachers. Although we have these plans already in place, we understand that some families may prefer to work from the materials made available through the Oak National Academy. This is absolutely fine and we are thrilled to see so many children learning at home and taking the opportunity to also do all kinds of things at home which are not usually taught in the classroom.

Feel free to continue to use our home learning grids (like the one below) or the lessons provided by the Oak National Academy. Either way, we would love you to keep in touch and show us the wonderful things you are doing at home, using Seesaw, Clasdojo or Twitter.

Stay safe and we look forward to returning to school to see everyone's smiling faces.

Reading – Inference and prediction

Florence Nightingale

Florence was born on 12th May 1820, in Florence, Italy. Her family moved to England when she was a baby.

As a young woman, Florence believed that God had told her to spend her life looking after people, so she became a nurse.

A war started and Florence went to look after the soldiers who had been hurt. Other nurses went with her.

Hospitals weren't very nice places in those days.

- Medicine was in short supply.
- The food was of poor quality.
- There weren't enough beds for the patients.

There weren't any toilets so the hospital was very dirty and smelly. Rats were common and many men died due to the poor conditions. Florence wanted to make things better so the other nurses helped her.

What Did They Do?

- The nurses cleaned the hospital.
- They washed their hands regularly to stop the spread of germs and infection.
- The patients were served better food.

These changes saved many lives.

Florence Nightingale

Florence was respected by the soldiers. They called her 'The Lady with the Lamp' because she walked around the wards at night with her lantern.

Florence spent the rest of her life trying to make hospitals better places for everybody.

She was awarded the Royal Red Cross by Queen Victoria in 1883.

Fact families – addition and subtraction bonds to 20

1 What calculations are represented?

The first one has been done for you.

$$15 + 5 = 20$$

$$\square + \square = \square$$

$$\square + \square = \square$$

d) How many other number bonds to 20 can you make using counters and ten frames?

2 Complete the fact family.

a) $15 + 2 = 17$

$$17 = 15 + 2$$

$$2 + 15 = \square$$

$$\square = \square + \square$$

$$17 - 15 = \square$$

$$\square = \square - \square$$

$$\square - \square = \square$$

$$\square = \square - \square$$

b)

$2 - 17 = 15$ should be in the fact family.

Explain why Rosie is wrong.

- 3 Complete the number sentences for the part-whole model.

Are there any other number sentences in this fact family?

Talk about it with a partner.

- 4 There are 9 boys and 8 girls in a class. Complete the bar model to represent this.

Write the fact family for the bar model.

- 5 Circle any incorrect calculations.

$3 + 7 = 10$

$10 = 3 + 7$

$7 + 3 = 10$

$10 = 7 + 3$

$10 - 7 = 3$

$7 - 3 = 10$

$3 - 10 = 7$

$7 = 10 - 3$

Explain the mistake that has been made.

- 6 Here are some number cards.

Choose two number cards and find their total.

$[] + [] = []$

Write the fact family for this calculation.

Compare answers with a partner.

Compare number sentences

- 1 Mo has 4 blue sweets and 3 pink sweets.

Rosie has 4 blue sweets and 5 pink sweets.

Who has more sweets? _____

Explain how you know.

- 2 Colour the bar models to show that
 $3 + 6 = 8 + 1$

Write one more calculation that gives the same answer.

Compare answers with a partner.

- 3 Draw counters to show $9 + 3$

Draw counters to show $9 + 4$

Write $<$, $>$ or $=$ to make the statement correct.

$$9 + 3 \bigcirc 9 + 4$$
