A Pirate's Life For Me

Thursday 6th June, 1708

Today has been a rough day at sea. The waves have been as tall as mountains and have been crashing onto the deck as loud as thunder. The harsh winds have torn down the Jolly Roger (our pirate flag) and have ripped the sails. The rigger has spent all afternoon repairing the damage and the cabin boys have been fixing the masts so that they will last the night. The quartermaster told me today that our supplies are running low. We are close to running out of food and we are starting to get scurvy because we have not had enough vitamins. We hope that our bad luck will change soon.

Over and out,
Captain Longworth.

Quick Questions

1. What do you think might happen to the pirates next?

2. How is Captain Longworth feeling about being on the pirate ship? Give a reason.
