### Science

In science we will be looking at difference materials. Can you find 2 different materials around the house and compare them? Do they look different? Do they feel different? What are the different uses of the materials? Complete the sheet attached below.

### Jigsaw

This week we will be continuing to talk about bullying. Choose two of the scenarios on the following page and answer the following questions about the two scenarios you have chosen.

1. What do you think is happening in the scenario?
2. What could the person who is being hurt/ bullied do about the situation?
3. What could the person watching (bystander) be thinking?
4. What could the bystander do in each situation?

Once you have finished answering the questions create a paper chain of people (template attached) and in the middle of each person write one thing that you can do if you see bullying or one thing you can do if you are being bullied.

\*\* If you are unable to access resources and would prefer a paper copy of these instructions please contact the school office.
