The Curriculum – Our Approach

Victoria Dock Curriculum – Ambition for All

At Victoria Dock Primary School, we celebrate our rich, multicultural school community through a purposeful and progressive curriculum. Throughout their school journey, our children experience drivers of

Our curriculum is designed to provide a broad and balanced education that meets the needs of each and every one of our pupils. The children are provided with a breadth of learning opportunities, which encourage them to explore and exercise their creativity by growing and developing into enthusiastic and highly motivated learners.

At Victoria Dock Primary School, we acknowledge the importance of developing the whole child instead of solely preparing for academic success. Our curriculum offers excellent opportunities for each child to explore and exercise their passions for sport, music, acting, artistic flair, business and enterprise and much more. These activities are shared regularly with parents, carers and visitors through performances, workshops, exhibitions and assemblies. We consider our local community to be of paramount importance. We believe it is invaluable to educate the children about the area in which they live and learn and to build a sense of pride in our local community.

In addition, we offer the opportunity for children to make a highly influential and tangible contribution to the daily life of the school and the wider community through involvement in our School Council or our Buddy Teams.

Victoria Dock Primary School

Curriculum Drivers

Aspiration

- * Use prior knowledge as a springboard for new learning
- * Resilience and perseverance
- * Listen and learn from others
- * Leadership skills
- * Appreciate and use local knowledge
- * Recognise success for all

Collaboration

- * Everyone's contribution has value and worth
- * Build and maintain healthy relationships with others
- * Encourage respect and the opinion of others
- * Confidence in our own voices
- * Leadership and group work

Community

- * Understand and accept differences
- * Tolerance
- * Appreciate the uniqueness of others
- * Compassion
- * Celebrate equality and diversity

Enrichment

- * Celebrate and embrace talent
- * Appreciate the Arts
- * Broaden life skills
- * Have the confidence to learn new and unfamiliar things
- * Ensure visits and visitors enhance learning

Working Memory Model

With the collation of all this extensive research, we have generated a 'Working Memory Model', which enables teachers to ensure that learning is robust and that all pupils are using their interconnected schema to their full potential.

Key Concepts

Through collaboration with subject leaders and subject specialists across our secondary schools, each subject has identified key concepts (big ideas) for their subject. These key concepts are the skills and knowledge essential to pupils achieving and exceeding expected standards in that specific subject. Key concepts are subject specific and build progressively as pupils move through the school. When pupils encounter a key concept, they will revisit other topics where they learnt about the same concept to enable them to make connections between different learning and build the schema they need.

PSHE					
					
Being me in my world	Celebrating Difference	Dreams and Goals	Healthy Me	Relationships	Changing Me

Second Order Concepts

Second order concepts are fundamental knowledge and skills, which are transferable across a range of curriculum subjects. For example, we introduce pupils to the concept of 'similarity and difference' early in their education, developing the observational skills and language needed to make comparisons. This is developed and applied as pupils move through the school so they can confidently apply this in all areas of the curriculum by upper Key Stage Two.

Curriculum subject	Significance	Similarity and difference	Cause and consequence	Continuity and change	Responsibility	Communication (Oracy & Written)	Enquiry
PSHE	Significant people, dates and events		The impact of behaviours, actions and language on others	How attitudes and beliefs have changed over time	Personal responsibility, responsibility to others, being healthy, sex and relationship education, resilience, British values, protected characteristics	Emotional literacy, discussion, listening, empathy and understanding,	

Key concepts (Big Ideas) in PSHE

Pupils will develop the fundamental personal, social, health and emotional skills needed to underpin their development as people and enable them to thrive in society. Throughout the PSHE curriculum, Pupils will build a 'toolkit' to enable them to understand the ever changing world around them, understand how to keep themselves safe and healthy, form positive relationships, develop tolerance and understanding for others, understand their feelings, emotions and changes happening to their bodies and facilitate them to develop their own positive mental health. Within PSHE, pupils will also develop an understanding of British Values and the Protected Characteristics.

Being me in my world

Pupils will develop an understanding of children's rights. They will learn that with rights, come responsibilities, rules and consequences. They will learn how to articulate their emotions and understand that all emotions are valid. Pupils will learn that their views are important and see how their views link to living in a democratic society and further, how their actions and personal choices can have an affect locally, within their school community and globally.

Celebrating difference

Pupils will develop and understanding how our differences make us unique and special. They will focus more in depth on naming emotions and using this to manage conflict. Pupils will learn how to be understanding and tolerant of other people's differences, even if they don't understand or agree with them. They will learn how conflict and not showing tolerance can lead to bullying and how to navigate away from these situations. Pupils will also be addressing stereotypes for boys and girls and learning that they don't need to fit stereotypes and that assumptions shouldn't be made as they may cloud their judgement.

Dreams and goals

Pupils will understand what a challenge is and how this can be related to or developed into a goal. They will develop the skills to set appropriate and achievable goals while understanding the steps they need to take to be successful. They will explore a range of different careers and professions and how to be successful at obtaining their chosen career path. Pupils will also look at failure, that sometimes they won't achieve their goal and how to cope and overcome it with resilience and hard work. Pupils will develop an understanding for networks of support open to them and how to access these.

Healthy me

Pupils will understand what it means to be healthy, both physically and mentally. They will discover who can support them with keeping safe and healthy in our school, the community and the wider world. Pupils will learn what their body needs to keep them healthy and how this includes their mental health and well-being. They will understand that lifestyle choices such as friendship groups can have a negative impact on their health.

Relationships

Pupils will develop an understanding of healthy relationships, including managing peer pressure and control in different relationships. They will gain strategies for recognising and managing their feelings as well as developing relationships with friends and family, including conflict resolution and communication skills. They will also learn about bereavement and loss.

Changing me

Pupils will learn how their bodies change and develop as they get older, including the differences between boys and girls. They will learn about puberty, conception, pregnancy and birth.
